**Network Contact Solutions (NCS) are a team of Telecom Consultants with some 25 years experience in helping businesses of all sizes, enhance their telecom arrangements.**

We recognise the difference an efficient and professional Call Handling Solution makes to your company, in terms of your own customers experience of your dealing with their call. We have harnessed together a range of customised Network Based Products to satisfy almost all Business needs, eliminating the need for Technology investment and able to work in conjunction with your existing telephone system.

Being independent of any one provider, allows us to trawl this competitive market to ensure you benefit from the most suitable service for your own systems and processes.

It is for this reason that we are the preferred supplier to hundreds of businesses throughout the UK; from Small Medium Enterprises and Sole Traders, to large Corporate Call Centres.

Our recommendations are free. Allow us to demonstrate how we can make that vital difference. Network Contact Solutions (NCS) are a team of Telecom Consultants with some 25 years

## *Call Manager*

**You can now control exactly how your calls are received without any capital expenditure in technology or staff.**

The Call Manger is specifically designed for small and medium sized businesses enabling your company to appear as professional as your larger competitors, because first impressions count.

Our service acts like your own receptionist, directing calls to other numbers either within or outside the company, which operate like extensions.

Call Manager will not affect any of your existing telephone numbers, or any current settings you may have with existing phone equipment.

The service is also easy to set up. We supply your main number (the one you advertise); record your message and direct your calls to the numbers of your choice.
