Network Contact Solutions (NCS) are a team of Telecom Consultants with some 25 years experience in helping businesses of all sizes, enhance their telecom arrangements.

We recognise the difference an efficient and professional Call Handling Solution makes to your company, in terms of your own customers experience of your dealing with their call. We have harnessed together a range of customised Network Based Products to satisfy almost all Business needs, eliminating the need for Technology investment and able to work in conjunction with your existing telephone system.

Being independent of any one provider, allows us to trawl this competitive market to ensure you benefit from the most suitable service for your own systems and processes.

It is for this reason that we are the preferred supplier to hundreds of businesses throughout the UK; from Small Medium Enterprises and Sole Traders, to large Corporate Call Centres.

Our recommendations are free. Allow us to demonstrate how we can make that vital difference. Network Contact Solutions (NCS) are a team of Telecom Consultants with some 25 years

Fax-to-Email

Our Fax-to-Email Service links a unique fax number to the subscriber's mailbox. When a fax is sent to that number, the service automatically converts the message to a TIFF format and forwards it as an e-mail attachment to your e-mail inbox.

Ideal for the consumer who doesn't want to pay for a second phone line for their fax service or invest in unnecessary hardware, with the added convenience of being able to pick up faxes while travelling, and also archive directly to your computer.

The only way of receiving faxes in today's paperless office.
